

## **STATEMENT OF PURPOSE**

### **RS23507**

This legislation continues updates to Idaho infraction law made in HB 434 (2014). Infractions have set penalties, however, out of caution for existing language that might exist in older statutes, a subsection of 18-113A made provision to recognize variable fines. In the interim the Supreme Court identified two such statutes. This legislation amends those statutes to set fixed fines and strikes the related subsection in section 18-113A.

### **FISCAL NOTE**

There should be de minimis fiscal impact. The bill is drafted to be revenue neutral.
